We, the senior class of 2015, have tried to maintain the academic standards that we have upheld throughout the years. In addition to this, we have been searching for a sense of unity ever since we entered LHS. Individually we have flourished and kept our standards high, but it was evident that we were weak as a group. Senior year we finally united. We turned into a unit that won spirit week as well as the other monumental events that followed. Let's "paws" and look back at how we got here!

### Freshman Year

- We weren't the only newbies, Mrs.Nemeth got a fresh start along with us freshmen as it was our first year at LHS
- We were privileged to live a week with no power due to the October snow storm
- The staff and administration loosened the reigns allowing us students to use our cell phones at lunch...now we don't have to hide it
- Showing who's boss we won Powder Puff!
- LHS joined the Kony cult #STOPKONY2012
- First year of the beloved MCAS...

### Sophomore Year

- Went from eating like kings at lunch to eating whole wheat low fat everything
- The 2012 apocalypse skipped over LHS
- Powder Puff champs once again!
- The Boston Bombing tragedy occurred
- Last year of MCAS!

### Junior Year

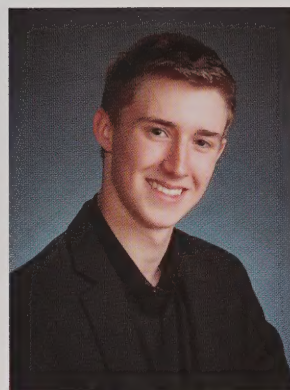

- Mrs.Nemeth informed us that we are officially allowed to run for our lives due to the implementation of ALICE
- Powder Puff Champions 3 years in a row!
- Now the staff and students have fast and efficient chrome books..
- The time had finally come for us to slave over our 10 page research paper
- No more MCAS...Now let the SATs begin!

### Senior Year

- We got the chance to skip class with three fire drills
- The app Yik Yak went viral at LHS.. causing some huge problems
- The school suffered a loss when the boys soccer team had to give up their title
- The scavenger hunt in Boston was topped off at the Cheese CakeFactory
- The undefeated Powder Puff Champions!!
- Finally you're allowed to come in tardy without detention up until the fourth time
- We get to sneak out of finals with a 91 or above average
- Pack up your bags kids, we're going to college!

# Best of the Mix Class of '16!!

**Class of 2016**, this is the year the idea of going to college gets real. Not only are our classes getting more challenging, but our lives around us are changing as well. We're one step closer to the "Senior Section" at lunch and one step closer to starting our adult lives. As a class, we have to remember to "paws" and enjoy the perks of being a junior. We get to plan prom, drive to school, and be considered upperclass men. Even though this year is the hardest, it will pay off next year when we're sitting in the Mullins Center in our caps and gowns.

Our **Class of 2017** is a unique class. Our Powder Puff team redeemed themselves this year with a big win against the Freshmen team which kept our Spirit Week hopes alive. Our win over the Freshmen was assisted by some of our most talented athletes. We have some amazing players who contribute enormously to Ludlow High School athletic teams. Aside from our athletic and spirit week achievements we are also the first underclassmen class in a long time to have not one, but two field trips. We visited Boston in early fall for a scavenger hunt in Quincy Market, and the New York trip gave us a lot of bonding time. This year we grew out of MCAS testing, and into PSAT tests, a big step for us as it is our first taste of college preparation. This year we also received our personalized high school time capsules, the class rings. Every ring is as unique as the student who wears it, just like the **Class of 2017**.

# Class of 2018

Freshman year is a difficult year for most but we pulled it off. It was a tough transition for the **Class of 2018**, getting used to everything new. So many new teachers, hallways and upperclassmen can be very intimidating. They came in strong in their first spirit week, almost beating the sophomores. Unlike last year's freshman class we stayed in the upperclassmen's good graces by keeping our assigned color. We had a great class field trip when we visited the Boston Aquarium and Quincy Market. Thanks to our new class advisers Mrs. Sands and Ms. Valentine it went off without a hitch. We elected our first class officers in high school which were Tyler Dowd as president, Sara Koprek as vice president, Celia Neveu as secretary, and Isabelle Cruz as treasurer. Overall we had a great start to our high school career.

Our first spirit week went really good.

**Sydney Carrington**

Our first spirit week could've gone better if the people in our class cared more and had more spirit.

**Avery Brilla**

Our first spirit week wasn't that good because freshmen didn't want to participate because they thought they'd be judged.

## LHS Faculty and Staff

Being a staff member at LHS is more than just a job. So many teachers, paraprofessionals, food service staff, janitors, and administrators put in numerous hours outside of LHS's normal school day. They put their own lives on "paws" to help educate the students of Ludlow. We, as students, don't take the time to realize that teachers don't live under their desks and that they have active social lives outside of these walls. In the following pages the Yearbook staff hopes you take the time out of your busy lives, paws and recognize the great teachers and staff that work together for all for us!

## John O'Connor- 25 years

**Q: If you weren't a teacher, what would you be?**

**A:** "If I weren't a teacher, I would be a news correspondent for NBC News: '... John O'Connor, NBC News, at the Pentagon.'"

**Q: What's something unique that you like to do?**

**A:** "Skydiving – just kidding! I don't even like roller coasters (except for the Crazy Mouse ride at the Big E). I suppose there aren't a great many teachers out there who allow their students to throw balls of paper at them for bad jokes or poor singing."

**Q: Any accomplishments you'd like to share?**

**A:** "Probably the most rewarding "accomplishment," if you can call this an accomplishment, is when a young person lets you know that you are/were their inspiration for becoming a teacher themselves. Oh, yeah, and once, a long long time ago, I broke 80 on the golf course. But raising your own kids will probably always be the greatest accomplishment of a person's life."

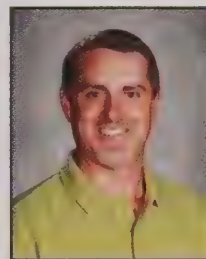

**Q: What's your favorite memory at LHS?**

**A:** "Notes and letters that kids have written me down through the years. I have a collection. While the majority are upbeat expressions of appreciation, a certain few are letters wherein kids open their hearts and tell of troubles in their family life, troubles that somehow relate to a lesson I may have taught. The kid's point is that a teacher can make a difference in a kid's life."

## "Paws" for Faculty Pictures

## Stop the clock...

Let's take a minute to "paws" and recognize how the Ludlow Lions did this past year. Throughout each page you'll rewind to look back on how each team did in their season. You'll "paws" on each page to see what makes each team unique. Athletics are big part of who Ludlow High School is and our athletes work hard both on and off the field. Take some time to get to know all the teams at LHS. You might want to try out for one next year!

## Brian Pacheco    Dustin Martin

Brian Pacheco, senior captain of the varsity football team, is a crucial part of the LHS team. Pacheco has been playing football ever since second grade. Brian wishes to continue playing football at Westfield State.

We asked Dustin what advice he would give to up and coming football players and he said, "To be a better football player than you have ever been, you have to do something you have never done."

# Time out...

Determination and pride are two things that are the foundation of the LHS football team. Through thick and thin, their greatest achievement is improving individually and as a team. Game after game, the team grows. While wins are what they strive for, it is just an added benefit to the overarching goal of improving. With a record of four wins and three losses, it is safe to say that over the course of the 2014 year the team has improved tremendously and their hard work has not gone unnoticed. They earned their wins and they earned the communities respect. It can be said with little doubt that the LHS football team has a great future ahead of them.

# Half-time Stars

This year's cheerleading team had another season of rebuilding, with only six veterans. They were happy to welcome eight newcomers and became coed with a male cheerleader addition. Not only were the veterans busy showing the newcomers the ropes, they also had time to cheer the football team through their ups and downs. In addition the Thanksgiving Day game is a big day because many people come to watch, so the pressure is on! They also had to work hard to keep the crowd cheerful. They wrapped up the season by being strong and united and brought the spirit to Ludlow High School!

(Front Row L-R) Sarah Martins, Theresa Gelinas, Arianna Tarantino, Samantha Vanwart, Alyssa Coelho. (Back Row L-R) Megan Fueston, Caitlin Cronin, Danielle Dart, Felicia Robare, Kellie Salmond, Dakota Guzik, Hannah Betit, Gabrielle Pereira.

**Danielle Dart**

How far do you think your team will go, and what is it like being in charge?

"I don't think I need to improve on anything."

David Anecchiarico

"It feels good being a captain knowing that I'm helping the team out, they know they can come see me or Rob if they ever need help."

# Paws to Serve

This year's girls volleyball team had a great season. For the first time in 14 years, the team made it to Western Mass and they finished the season with high spirits. The team's winnings were directly related to their commitment and teamwork. The team will have big shoes to fill next year but for now let's "paws" to appreciate the legacy this year's seniors are leaving behind.

Gallo: Yeah, if I stop being lazy.

Forzano: Yes, I plan on continuing to run for the rest of my life.

Frigon: In college I'll probably want to run, I don't care if it's D1, D2 or D3. I'll keep running for the rest of my life.

# STOP THE WATCH

Stop the Watch and look back at a great season of cross country. Though they didn't win every meet, they did strive to be their personal bests. A lot of the boys beat their personal records; said freshman Drew Brissette my favorite moment was "PR-ing by four minutes". As a whole the team pushed each other to reach their team goals of everyone being under 25 minutes for the 5K and being in the top five teams at Western Mass. Throughout the season the boys have grown really close as a group. They encourage each other both at the meets and at practice to be the best they can be at all times. "We have some good team chemistry throughout the various ages" said captain Connor Frigon, "the freshmen just made themselves at home". The underclassmen all agree that seniors Joe Forzano, Nico Gallo, and Captain Connor (Tim) Frigon, have been very encouraging in reaching their goals for this season and they will be sad to see them leave.

# AND THE TIME IS...

This season, the girls cross country team focused less on winning and more on reaching goals. Although the team didn't necessarily win every meet, the varsity girls led by captains Kierra McCarthy and Meagan Dias often helped the junior varsity girls to reach their season goals and become better at their sport. They took the time to "paws" and think less about winning and more about each individual girl. Their goal this season was for every girl to run the 5k in less than 30 minutes and to make states as a team. Reaching these goals was possible because of the fact that the team is so bonded. Between pasta parties, theme days, and overnights, the team spent so many hours together. Their big trip this year was to

Lehigh University in Pennsylvania for two nights to run in the Paul Short Run. It was a great experience for everybody considering 29 out of 36 athletes had season best times. Varsity girls placed 10th out of 30 teams. And for the first time in history, the varsity team made it to states where they ran in Boston. Overall, the girls cross country team is definitely more of a family than a team and the athletes constantly push each other to do their best.

## Kierra McCarthy and Meagan Dias

**What is the best part about this team?**

**Kierra:** "I think it's that over the years we've had so much depth and so many people and last year we graduated a lot and this year we have a lot of freshmen and new girls and we're still doing well."

**Meagan:** "Our hard work and how strong we are compared to last year and we are connected and a family."

# Paws to score...

Ludlow boys soccer had a great season with lots of high points. Captains Michael Gonçalves, Tyler Diotalevi, Gabriel Pereira and David Gonçalves had a great season. Michael led the team with 13 goals this season. Tyler had an outstanding season with 86 saves. He also scored 2 goals on his senior night. Senior, Zacharry Frangules also contributed as a top soccer player with 9 goals and 5 assists. Due to unavoidable circumstances, the boys soccer team was not able to play in the Western Massachusetts State Championships but that did not take away from their season nor their individual achievements.

## Athlete Spotlight

**Hannah Smith**

A "I feel really confident, we have great chemistry on and off the field. You can see it as clear as day on the field so I feel like we're going to get really far with both our skills and support that we have."

# Warning:

## Pucks may fly at any time!

Even though the hockey team had its ups and downs, they still manage to “stick” together. They had a tougher season this year, but that didn't squander their motivation. They beat West Springfield and South Hadley during this season. And at the end of the day they always have each others back and continued to be inspired by one another.

# Glide The Slippery Slopes

## Ski

Ludlow High Ski team had an amazing season this year! They were fourth in the league out of 8 teams. Many new faces joined up this season. Each member brought unique qualities for participating in ski. There isn't always a big crowd at the matches, but that doesn't mean they don't rock the slopes.

### Q&A

**Zoe Frangules**

Q: What made you want to join the ski team?

A: "I wanted to join the team because I wanted to try something new, along with still playing a sport since I quit basketball."

**Erica Crespo**

Q: What made you want to join the ski team?

A: "I've been skiing since I was about four and I wanted to participate in a winter sport."

# KYLE PUZZO

We asked Kyle if he prefers competitive skiing to free ski and he told us:

"Honestly I don't like competing. I like to free ski, and do things for fun in my own way. Competing is very stressful, and there is a right and wrong way, but I'm very competitive so I always want to win. That's what fuels me, and keeps me competing."

## Boys Basketball

The Ludlow Lions basketball team had one of its most inspiring seasons. With only four seniors on the team the boys won many close games. The strength and will of each player brought great character as teammates helped each other through. The long, hard fought season brought the team closer, and the determination of each player made each game exciting. This was a great season of basketball for the Ludlow Lions.

# We want three!

## Girls Basketball

The Ludlow High girls basketball team isn't just any ordinary team; they're a family. They exhibit teamwork, compassion, and pride in every game they play. They always come to win and Senior Alyssa Guyon broke the record for all time leading scorer as well as single game scoring record with 39 points. Now that the seniors will be moving on the underclassmen will be stepping up to continue the success of this athletics program.

This year's wrestling team had their "paws" on the mat together. The confidence they had from walking onto the mat as a family was shown in their performance. ## "PAWS" TO DIVE IN Coed Swimming

The Ludlow High School swim team had a great season this year. The girls had eight wins and two losses, but their proudest win this season was against Chicopee. They haven't won against them in five years because of the points that they lose due to not having a diving team. Unfortunately, the win did not count but the fact that they could get enough points to win was an amazing feat. The boys, on the other hand, had zero wins and ten losses. This was because of the fact that there were only three athletes on the team: Kyle Beaudette, Nate Feliciano, and Ryan Goncalves. The boys didn't have enough athletes to be able to win meets but they still swam great, especially for having two new athletes. This year was also the first year for Coach Callahan. She did a great job of coaching the athletes, taking them all the way to Western Mass. At Western Mass, they did great. Andrea Taylor broke the school record for the 100 backstroke and qualified for states. At the same time, all three of their relays had season best times. The swim team had a proud season this year accomplishing phenomenal feats.

# Clubs and Organizations

Students at Ludlow High are not just athletes and scholars, but active members of the many clubs and organizations at the school. Whatever your passion: photography, travel, community service, religion, meeting new people, or playing your favorite games there is a club at LHS for you!!!! "PAWS" and take a minute to see what clubs you are part of and maybe which ones you may want to join in the future.

# As Schools Match Wits

**Zack Frangules**

## Alternate

We asked Zack Frangules -who is an alternate for ASMW- why he joined the club and he told us: "Growing up my dad and I would always watch Jeopardy. That type of random trivia game show is very interesting to me. I decided to take the As School Match Wits test sophomore year, junior year, and finally I scored high enough senior year. This is very amusing to me to use intelligence, and have fun at the same time."

As School Match Wits is a trivia game which is televised on WGBY in which a team from one school competes against another. It's very similar to jeopardy, but it is focused more on high school students. The students who participate are some of Ludlow High's best and brightest, and are brave enough to put their wits to the test.

The hallways of LHS have brightened up with beautiful and inspirational murals created by the art club. Unlike taking an art class with structured plans and instructions on what to paint, the art club allows individuals to flourish and express their true abilities and ideas.

## What makes art club different from art class?

**Mrs. Lacroix**

The art club is small groups of people and they have the freedom to develop their own ideas and the classes learn more specific skills.

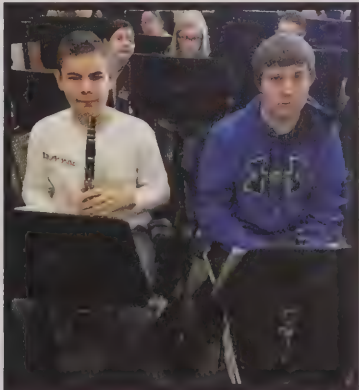

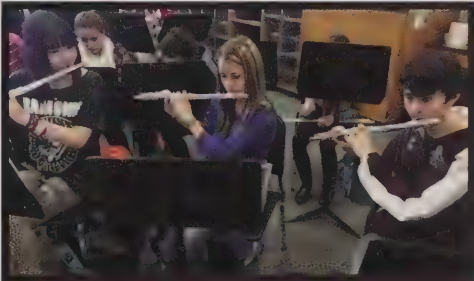

# Band

LHS band keeps the momentum going during home football games and share their talents with large crowds at the Big E, Quabbin Music Festival, and the UMASS Haver Band concert. Even though the band advisor had a lot on his plate this year he was still able to keep the club together and ensure that they had another successful year of concerts and competition.

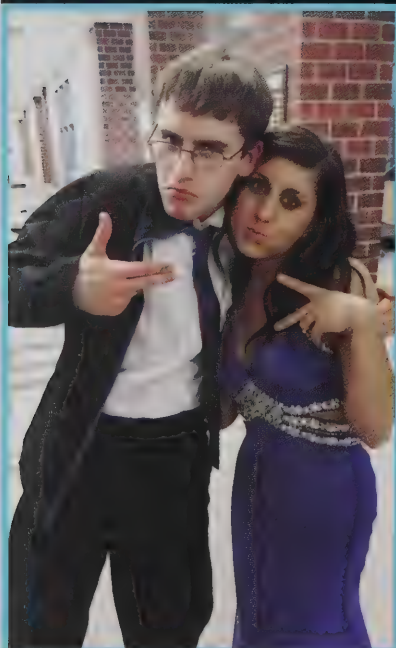

# Best Buddies

Best Buddies is an organization where fellow LHS students volunteer to get to know and assist special needs students that attend the school. They're given the chance to bond and build connections through various field trips they go on. One of the students favorite activities is the Best Buddies prom that is held annually. It gives the special needs students the opportunity to experience social interactions they might not have had otherwise.

# Bible Club

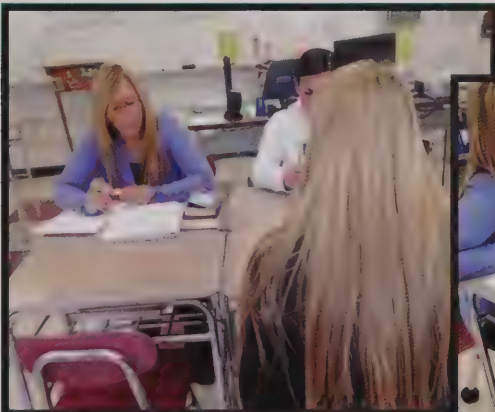

Q: What made you want to join Bible Club?

Erik Bastos

"I joined the Bible Club in order to meet other believers in Christ in the area and to find a way to reach out to the community".

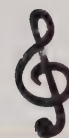

Ludlow High School's Bible Club is a fellowship of students who believe in God and want to know him by learning about him on a deeper level. They strongly believe in their interpretation of the Bible, which brought them to joining this club. They are motivated by the love of God and make it their mission to preach the gospel of Jesus Christ. They want to meet every need of his, and plan to do this without any discrimination. In the future they are planning to do community service and go to the movies together so they can spread their beliefs throughout the community.

# Chorale Club

## A Word From The Chorus

**Emily Alves**

“My favorite thing is that everyone that is a part of the club is so connected and serious about their work.”

Ludlow Chorale is a great opportunity for all students who love to sing. Students that wish to be a part of this must talk to Mr. Henry about an audition. This is to ensure your voice is strong enough for the difficult songs the club sings. They meet on Fridays after school to sing their songs. It is great way to let your voice be heard.

# The Cub

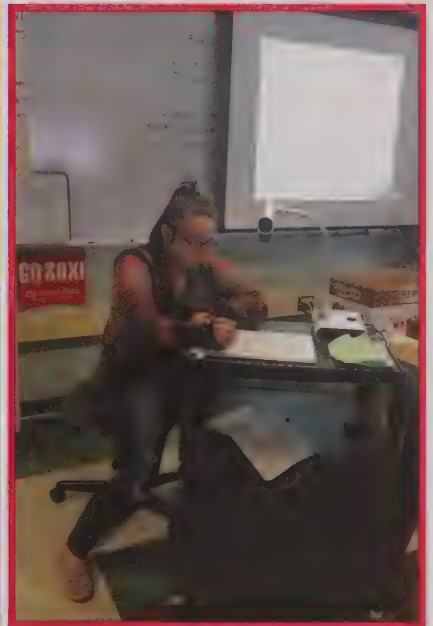

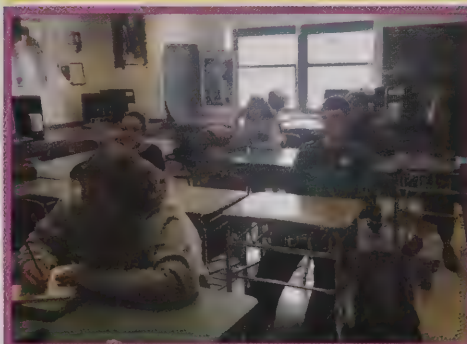

The Cub is a creative outlet for any LHS students that want to express themselves through writing. The cub is held every day during 7th period. Mr. Cingemi supervises the newspaper where students get to keep everyone up to date on stories and opinions that we all have. See the students original works at [www.ludlowcub.com](http://www.ludlowcub.com).

Grease is the word! Drama club is a place to express yourself through different characters in all different shapes and forms and for the first time in 11 years, Ludlow High School's drama club performed a musical. They chose Broadway's most famous musica Grease. Although they had to work around the hardships of the weather and the flu, they performed a "phenomenal" show as noted by some of the audience. The cast and crew bonded through not only long rehearsals, but also Buffalo Wild Wings and pizza trips, secret handshakes, and cast parties, all of which helped with their success. As the cast and crew prepares for another great show their stage manager and "drama mama" Adrien Rescia is proud to say "we really do go together like rama lama lama ka dinga da dinga dong".

"GSA creates a safe space for people to come and be free of judgment and get support."

- Mrs. Maguire

# Interact Club

This year one of LHS's most popular clubs got three new advisers. Mr. Hokanson, Mrs. Cerruti, and Mrs. Roy stepped up into the position. Interact is a club devoted to making the world a better place. This year they did a Fair Trade Fundraiser where all the goods supported the people that actually made them by making sure they are paid fairly.

## Q&A

Why is community Service important to you?

**A:** Community Service is important to me because it creates a sense of value for all people and helps me to not focus so much on myself but reach beyond that.

Adviser- Mrs. Cerruti

**Alyssa Guyon**

"Leading Lions is a program that helps incoming freshmen adapt to the school, get them used to the layout of the school, what the classes are going to be like, the work load, how to manage their time, and then get them comfortable so they're not intimidated by upperclassmen. It's run by upperclassmen which is helpful because it doesn't exclude them as a lot of other schools do."

# Lions Pride

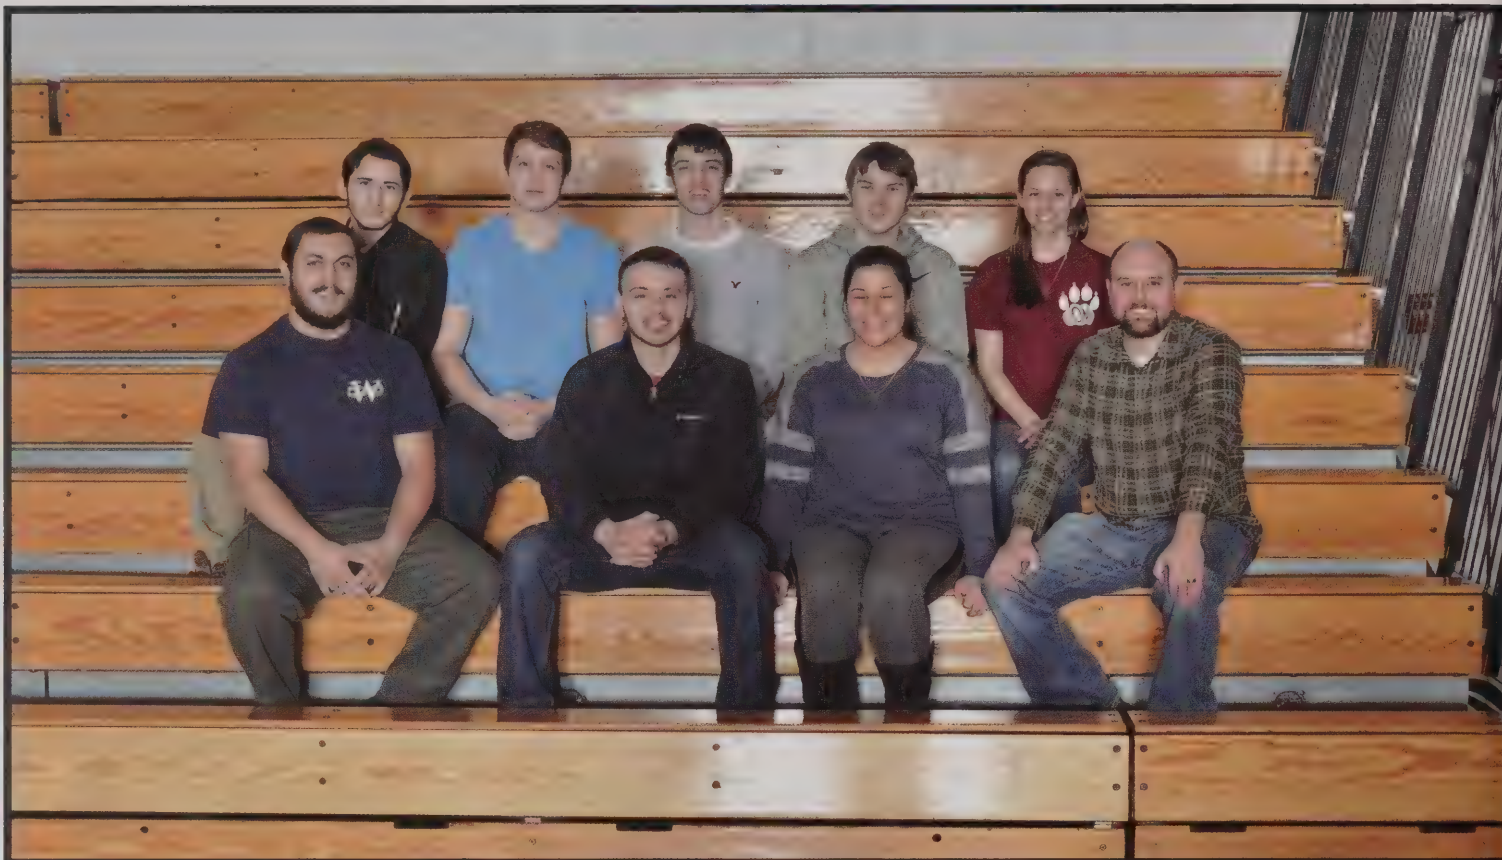

Lion's Pride is a club that demonstrates the school spirit of Ludlow High School, they plan spirit week and gather ideas to make the spirit of the school live on. The adviser Mrs. Gavin works hard to bring the group together and collaborate ideas. As a group they are an amazing factor to the Lions family.

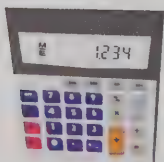

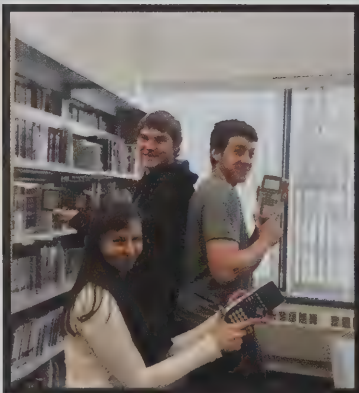

# Math Club

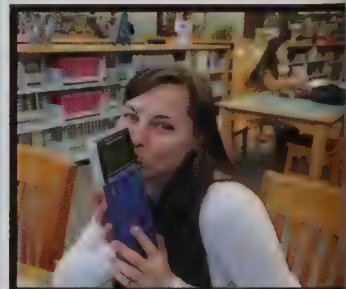

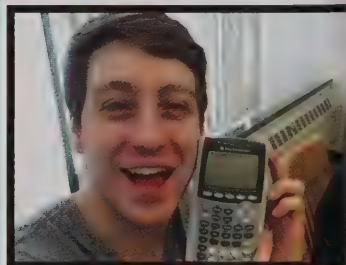

**Math Club** is a group of passionate students who have an indefinite love for math. On their meeting day, Tuesday, they solve multiple problems that range from: easy, medium, to hard. Students are given 3 complex math problems that are asked to be solved within ten minutes. Following this, members rush to be the first ones to get the questions right. Thus, a friendly and competitive environment blossoms each and every time the students meet. Furthermore, members aim to aid each other when one another are having difficulty. They assist each other with homework they may have and always do their best to help one another out. Overall, the math club is friendly, fun and welcoming community that is full of people who all share a similar passion for math. If you or anyone you know have a desire to further their skills within the mathematics field or share your passion for math with others, the math club is without a doubt the club for you.

**Q:** What made you decide on joining the math club?

**A:** "Math is fun, I enjoy solving the various problems we are given and I love the people who are in the club." - Josh Paulino

**A:** "Someone had asked me to go to a math meet. I had a blast when I went and stayed in the club because of my love for math." - Liz Skaza

National Honor Society is a dedicated group of students who excel both in school and in their community. Throughout the year this group participates in various volunteer opportunities, such as the Mayflower Marathon, a food drive run by radio station Rock 102.1 as a contest to collect non-perishable food for the Springfield survival center. For the second year in row, Ludlow High School's National Honor Society has not only won the competition but has raised the most cans for those in need. In the winter, NHS also works closely with the Yearbook club to put on the, always popular, Volleyball Marathon, an all night volleyball tournament full of teen spirit and friendly competition. To end the year NHS works with the school committee to put together the Relay for Life, a walkathon to benefit cancer research. National Honor Society's main focus is to bring the community together, whether on a smaller scale or larger one.

## ¿Qué hacemos?

What do they do in the Spanish club? They've done many things in Spanish club this year. One thing they've been working on is a Spain and Portugal trip in 2016! This is the first time they've added Portugal to the Spain trip and is expected to be the trip of your life. They've also made traditional and cultural Spanish meals after school in the club. They've done many things for the community and continue to do so!

## What makes Spanish club more unique than Spanish class?

**A:** We do eat lots of Spanish food, make arts and crafts, celebrate Spanish holidays, and it's really fun because we can learn more about the culture than just about the language.

*Madalyn Hauge*

**A:** In Spanish class it's mostly just learning the language. Spanish club we are able to do more fun activities and a more fun environment.

*Riley Harrington*

**A:** Spanish club is more fun and not like a regular class. There's no work and we do fun projects to help our school instead of learning the language. It's more about Spanish culture.

Finally, their work is not only limited to the classroom, each year members have the opportunity to display their photos within the annual LHS art show. All in all if you enjoy art and photography as well as sharing your works with others, the Photography club is for you.

They enjoy burning the calories from school lunches and relieving stress every Thursdays after school. Get moving!

# Sgt. Joshua Desforges Challenge

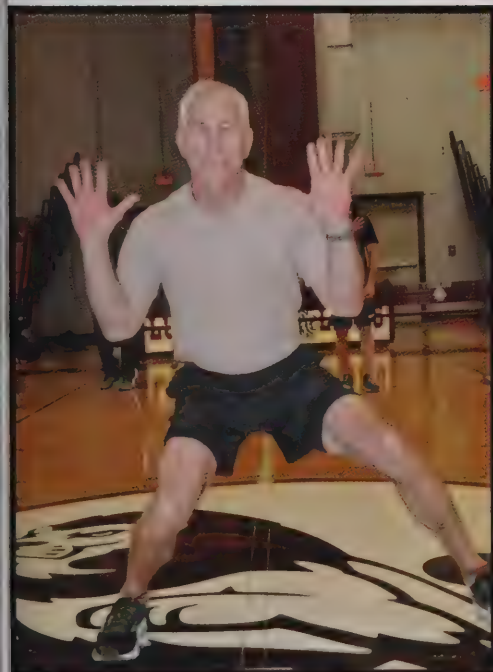

## March 12th, 2015

Honor, courage, and commitment are the three words that exemplified our fallen brother Sgt. Joshua Desforges. They are also the three words that define his legacy here at Ludlow High School. Since 2010 the Ludlow community has come together with help from current and former Marines

to take on a challenge worthy of the ultimate sacrifice Desforges gave on May 12, 2010. The hour long grueling fitness challenge ends with anyone who can last going into a pull up challenge. The money received from this event goes on to support student scholarships.

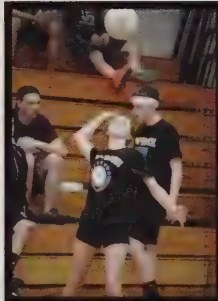

**CONGRATULATIONS:** Pictured above are winners Ian Snyder and Mia Bouyea. These two received the awards from Sgt. Joshua Desforges's parents.

# Volleyball Marathon

The Volleyball Marathon is a Ludlow tradition going back many years. It is a great fundraiser for the clubs at LHS as well as a great time for the students of LHS. An all night round robin tournament is played with the winners receiving a trophy and gift cards.

## Kyle

As your journey  
from high school  
ends we hope you  
take the opportunity  
to enjoy every day  
to its fullest.  
We are so proud of  
you.

Austin,

As a young boy you were full of curiosity  
and mischief and kept us on our toes. It has  
been amazing to watch you grow, learn and  
push yourself towards your goals. We can't  
help the sadness we have as we let you go  
out on your own, we hold happy memories  
of your childhood close and we are anxious  
to see where your goals will take you.

Parenting has always been about letting you  
go and do things on your own in stages as  
you built your confidence. As you take flight  
out into the world it is up to you where you  
will fly or how high you will reach. Take  
these words of wisdom and carry them with  
you: *The height of the accomplishments you  
can achieve will always be equal to or exceed  
the depth of your belief in yourself.*

With all of our love and pride,

Dad, Mom, Zack, and Bummy <3
